SEARCHING AND VIEWING DOCUMENTS
Find and display information fast

Simple *three-step* searching

1 Target the publication(s) or topic(s).

2 Enter your search expression.

3 Click the "Search" button.

Tip: To begin a new search, simply click the "Clear Selections" button.
To search within your search results, type your new search expression and click the "Search" button.

Two ways to view search results

1 **View by Document** — displays a combined list of documents from all the publications/topics that you searched. May be sorted by relevance if you choose.

2 **View by Table of Contents** — displays search results directly on your library tabs and indicates number of "hits" next to the publications/topics in which they are found.

When you find a document you want to display, simply click on the title.

Tip: To display search results under a specific topic, just click the 🖳 icon

DOCUMENT TOOLBAR
Navigate easily within and among documents

View the next or previous document in your search results list. Click on **List** to return to your search results or **1st Term** to navigate down the document to the place where your search term first appears.
